

**DECORATIVE  
WALL  
PANELS**

*Waves*

**“*Waves*”** has 3d knitting visuality  
which is inspired by the moving  
of splay lines, its elegant,  
simple, fashionable design.

# STRIKING VERSATILE BEAUTIFUL

*“Waves”* has its own registered certificate of design

## An integral and modular programme

The integral, modular panel programme *“Waves”* is fully geared to the requirements that architects set for panels. Extremely comprehensive in terms of colors and surface finishes. *“Waves”* is also available with LED lighting. The panels are suitable for interior wall and ceiling surfaces.

# PASSION FOR FASHION

*“Waves”* gives each wall or surface a unique character of its own.

*“Waves”* panels are made of different kind of plastics which are preferred in use of high polymer technology. This characteristics make the product strong, durable, light.

# EXTRAORDINARY IMPRESSIVE AMAZING

Transform your walls into  
prestigious eye-catcher.

Open up a whole new design paradigm with  
flowing lines in an easy-to-install configuration.  
Available with a variety of finish options,  
“*Waves*” model brings pre-packaged  
simplicity to the family.

DERI & MOD

# INTERIOR WALL & CEILING

*“Waves”* gives each wall or surface a unique character of its own.

## **innovative panel concept for today's architecture**

Easiness of installation, practicability of packing system, unique concept design, modern elegant and attractive appearance support product usage in contemporary architecture. The latest innovative wall panel design of 2013

# THE FINISHES OF THE CASE

There is not any standardized finish part of the product, the finishes can be selected to compliment the colors and textures of the surrounding interior spaces. It can be aluminum, wood, gypsum board or any other material.

# Product Introduction Guide / *Waves*

*Waves* is modular system which can be extended in any direction and custom sizes to suit any spaces. It is available in a variety of Standard product such as; transparent, opaque and metallic colors.

## There are 2 different kind of product specification;

Transparent (It can be changable by RGB led lights into any color)

Metallic color there are few main colors such as;

Gold

Silver

White

Smoke

Antrasit

**Note:** Any color can be applied for over 35 sqm order.

Product installation model shown as follow;

- 1 Oval Product Surface
- 1.1 Lightning (LED) Canal
- 1.2 Assembly Part
- 1.3 Assembly Screw Hole

*Honeycomb*

**This small hexagonal tile is laid on a surface pivoted at varied angles to show differing shades and create subtle imagery and graphics.**

# MODERN MODULAR DIMENSIONAL

Sophisticated panels bring impact to spaces with functional pattern, texture and color

**ARCHITECT-  
TURAL  
SOLUTIONS**

This small hexagonal tile is laid on a surface pivoted at varied angles to show differing shades and create subtle imagery and graphics.

Available in glazed or matt finish in an extensive variety of colours and finishes, this clever little tile is supplied with a variety of varying angled faces, which when laid in formations can create different shades on a surface

# MAKE A BIG ENTRANCE

Flexible modular tiles available in a wide variety of finishes meet your unique design vision.

Design with the ability to create infinite concept. This easy-to-install modular system can be used in a variety of applications for your unique design-intent.

# MODULAR WALL ARTS

This mesmerizing panelling is made up of small hexagonal tiles on a surface pivoted at varied angles to show different shades and create imagery and graphics.

specialise in the development of truly innovative surface and interior design projects. Our company prides it self on the ability to deliver a diverse range of surface solutions that marry architecture with beautiful interior finish through inspiring surface development.

# Product Introduction Guide / *Honeycomb*

*Honeycomb* was the newest and latest wall design panel of the world which was launched at the beginning of August 2014. *Honeycomb* model has model modular lines which bring impact to spaces with pattern, texture and color.

There will be 2 different part: 1 - bottom installation part 2 - upper visual part

The upper visual part will be installed after the bottom part. The sub-frame part has screwing and centering holes. It can be centered to each other easily. The installation method is same as LEGO system.

Gold

Silver

White

Smoke

Antrasit

**1** Start the pasting process by applying silicone behind the bottom apparatus.

**2** Once the pasting process is over, strengthen the apparatus by screwing it from determined points.

**3** The centralization details that are on the installation apparatus and bottom apparatus are each other attached to

**4** Complete the installation process by attaching the pin space holes that are on the inside of the top parts of the product to the pin bulges that are on the bottom installation apparatus.

*Kosmic*

*Kosmic*, from the Ancient Greek meaning “combining from of five” consist of a modular tile designed using irregular concave & convex lines at different highs and angles on the plan. The different highs and angles give a sense of depths to the wall by playing with the lights and shadows created by *Kosmic's* asymmetric geometry.

# ADD RICH TEXTURES TO YOUR SPACES

Meet and exceed project expectations  
with guidance from specialists in  
fabrication, hardware and design.

**A series of beautiful, aesthetic,  
modular systems that are simple  
to specify and install**

The multi-faceted tile when assemble  
as a wall, make a vibrant surface that  
fascinate the eyes by its multitude  
reflections creating layered pattern  
similar to natural scenery.

**A BUNCH OF  
PRETTY  
ANGLES**

## A bunch of pretty angles

This model is created by five diagonal lines that emerge from the central square. It is composed of two tiles which is concave and convex.

*LEAF*

This small polygonal tiles in opposing directions to create a subtle geometric stripe. Design of the tile give a sense of depths to the Wall by playing with the lights and shadows created by *Leaf* 's polygonal geometry.

**THE POWER  
OF PLAYFUL  
TEXTURE**

### Design Idea of '*Leaf*'

A contemporary tile *Leaf* takes its root from oats head which laid on wide spaces in a great harmony and rhythm. We combined cultural heritage of nature with architecture and inspired oats head forms designing "*Leaf*".

# INDEPENDENT MOVES & INFINITE DESIGNS

*Leaf's* design concept is an invitation to imagine, play and create. Each tile of the design is independently moves according to the designer dream.

# Product Introduction Guide / Leaf

**Leaf** is the newest and latest wall design panel of the world which was launched at the beginning of March 2018. **Leaf** model has model modular lines which bring impact to spaces with pattern, texture and color.

There will be 2 different part: 1 - bottom installation part 2 - upper visual part

The upper visual part will be installed after the bottom part. The sub-frame part has screwing and centering holes. It can be centered to each other easily. The installation method is same as LEGO system.
